TUESDAY - AUGUST 15.

Our neighbor of the Commonwealth, taking his cue from the JUPITER, of the whig press in this state, the Louisville Journal, accuses several democratic papers, the Yeoman among the rest, of condemning the administration in regard to the Greystown affair. If he will refer to our article upon the subject, he will find that we spoke only upon the scant information we could call at the time from our exchanges. We also said there might probably be 'palliating circumstances connected with the case, which, when developed, would exonerate the administration from all blame. Those 'palliating circumstances' have been developed, and he has a wonderfully discriminating ken, which we confess we have not, if he can see any thing in the instructions as sent to Congress, which is calculated to reflect dishonor upon the administration. The secret of this great outcry upon the part of the whig press is, that it was the act of a democratic and not a whig administration. Had Greystown been bombarded under the Fillmore reign, the whig journals of high and low degree, would have cried 'hallelujah' to their heart's content, but as it was done under Pierce's administration, they have gotten the sacrificial bowl and knife ready, and intend to immolate him.

IS THERE A CITY MARSHALL AMONG US? - At the Police Court on yesterday the question was raised upon various warrants served by our acting Marshall whether or not he is legally in office. After hearing the arguments pro and con, his honor Judge Monroe was unable to decide greatly this.

HORRIBLE CATASTROPHE.—By an extra from the Maysville Express, we learn that a large magazine, containing eight hundred lbs of blasting and rifle powder, was fired by some scoundrels, or fiends rather, on Saturday night about 2 o'clock. Strange to say no one was killed, but there were several injured; a great many buildings in Maysville, had their roofs torn off, and walls demolished. Dwellings in east Maysville and Aberdeen were shaken, and their windows broken. \$1,000 reward have been offered for the perpetrators of this horrid act.

NORTH CAROLINA ELECTION.—The following table embraces all the returns of the election for Governor in North Carolina yet received by the Telegraph and mail. They are compared with the vote for Governor in 1852, when Gov. Reid (dem.) was elected by a majority of 5,564:

	1852.	1854.

Reid's maj. 6,168 Bragg's maj. 5,006	11,635	9,155

These figures will put a damper on those whig papers that have been chuckling over the fancied defeat of the democratic candidate. That they had strong hopes of electing Dockery, we think they will not deny. They wished for the success of their candidate, because they fancied it would be a rebuke to the administration, and nothing was left undone that would secure it. That they have made a wrong calculation is now certain. They must go somewhere outside of old North Carolina, if they hope to find sympathy for their anti-Nebraskaism, or wish for something that would seem to condemn the acts of President Pierce. We rejoice in this triumph of the democracy of the old North State, for she was one of those *whig* States which refused to support General Scott, because of his sympathy with the Seward and Greeley abolition clique. She had faith, in 1852 in the patriotism of New Hampshire's favorite son—a patriot that knew no North and no South, and she has spoken in blunter tones that that confidence is not yet shaken—that she, for one, is satisfied with the manner in which he has conducted the affairs of the government, and is willing, aye, anxious to trust him further.

We had the pleasure of meeting with the Hon. Jno. C Breckinridge, in Lexington last Saturday. He looks very well indeed after the arduous labors of the past session, and is in better plight than ever to run another race.

"Why don't you run away, I do," said the locomotive to the railroad track. "Because I am tied down," was the desponding answer.

The Execution of Weigart.

Saturday last, as our readers will recollect, was the day appointed for the execution of William Weigart, who was convicted of the murder of Chas. Cushing, in Lexington, last winter. It was announced that the execution would take place, contrary to general expectation, between 9 and 10 in the morning. At an early hour, crowds could be seen coming into the city from every direction, and by 9 o'clock the street in front of the jail was crowded to such an excess that it was impossible for vehicles or horsemen to pass. The Sheriff, with an armed guard, was stationed around the door to keep the crowd from pressing too closely upon the ear, which was standing in readiness.

INFORMATION WANTED.—William David-son emigrated to the United States from the neighborhood of Edinburg, Scotland, about twenty-three years ago. When last heard from, nine years ago, he was in Kentucky. If living, he will obtain important information by addressing P. Swigert, Esq., Frankfort, Kentucky, who has received letters from his friends in Scotland. Kentucky and other Western papers please copy.

APPOINTMENT BY THE GOVERNOR.—Robert McKee, of Hopkinsville, to be Commissioner to settle the accounts of the Second Kentucky Lunatic Asylum, vice Eustis M. Covington, resigned.

THE DISCIPLES OF TERPSICHORE will recollect that Col. D. KORNPAFF's Grand Prize Bill comes off this evening at the Capitol Hotel. Everything will be admirably arranged, and those who participate in the festivities, will be amply repaid in pleasure, for the money they expend.—The Colonel's prizes, which are very fine indeed, will be on exhibition at some of our jewelry establishments to-day.

PROVIDENTIAL ESCAPE.—On

Saturday last, just as the congregation of the Catholic church in Lexington had been dismissed, the whole ceiling, joists and cross beams, &c., fell in with a tremendous crash. Father Maguire did not preach that day, because the evening previous several pieces of plastering had fallen, and he feared that others might fall during preaching, and alarm the ladies, but he did not anticipate any such catastrophe.—Had he preached as usual, the whole congregation would have been buried beneath the timbers, and no estimate can be formed as to the number that would have been killed or injured. We consider this as a most singular and palpable manifestation of Divine Providence in behalf of human beings.

Daviess County—Joseph G Harrison, Sheriff; Geo A Yeaman, County Judge; Graham Arthur Wallace, Jailer; W J Johnson, Coroner; George L Haywood, Assessor; S D Shephard, Surveyor.

We have remarked that the crowd was large, that we expected, yet we felt inexplicably shocked and almost disgusted, as we saw the number of females on the ground. It is scarcely credible, yet it is true. Who would have expected that *women*, sweet synonym for mercy, and gentleness, whose delicate hands are ever ready to minister to the wants of the distressed, and to sooth the troubled and care-laden mind, could have gazed upon a scene, which was enough to harrow the

sensibilities of a strong man. We are gratified to think that the larger portion of females in the city repudiated the very thought of going to the execution; for this we commend them, as it displays that kindness of heart and commiseration for the misfortunes of others, which has ever been the crowning ornaments of their character.

The Tri-Weekly Yeoman.

ARRIVAL OF THE EMPIRE CITY.

New York, Aug. 11.

The steamer Empire City arrived this morning, having left Aspinwall on the 1st. She brings California mulls of the 15th of July, and \$72,000 in treasure.

John Thompson, aged 30, Garrett Stage, aged 33, and Patrick Sturkey, died on the passage of yellow fever.

Among the passengers from San Francisco is the Admiral of the Peruvian navy.

We have Parcua Gabaldon and Venezuela dates to the 26th of July.

They mention the provinces of La Portuguesa and El Guarico have revolted against Monagas, along with the provinces of Cera and Barquisimeto, before reported; Col. Juan Garcia, whilst on a march with 500 men to join the revolutionists, was betrayed by one of his officers to Gen. Falcon, the commander of the government forces, who attacked and defeated Garcia. The latter, after surrendering, was assassinated with his whole party. The insurgent forces of Barquisimeto, to the number of 3,000, had attacked Silveira.

Considerable sickness prevailed on the isthmus. The cholera made its appearance, but when the steamer left it was entirely eradicated.

Very severe thunder storms were experienced, the City Hospital at Aspinwall was struck, by lightning and slightly damaged.

A French war steamer, was captured by a Russian war steamer of 500 tons, from Havana, off Valparaiso, and towed into port.

The U. S. Corvetto St. Mary's paid a visit of a few days to Valparaiso. Gen. Flores was received on board with a salute, &c. During her stay, it is reported her batteries were offered the U. S. Consul, in whose house the naturalized American citizens had taken ref're from Chile.

The prison affair appears to be quietly settled.

Business at Valparaiso was quiet and but little doing. The harbor was very bare of shipping.

The Empire City's dates are the same as those brought by the Star of the West.

The sloop-of-war Cyane arrived at Aspinwall on the 23d and sailed again on the morning of the 23d her object being to pick up the deserters.

The British screw steamer Valdivia arrived on the 20th with South American mulls to the 3d of June.

The Civilian Congress was sitting but, nothing of interest was done.

The ship Townsend, of Boston, was burned on the 25th of May, in lat. 35 south. The captain and crew, 24 in number, fled to the boat. The weather was very heavy, but after a voyage of 600 miles, one out of the four boats and twelve out of the 24 men succeeded in reaching Juan Fernandez.

The Lima News of the 15th says that De Kelingue is going to take command of the army in person.

The same paper says that ample apology has been made for the outrage committed by the press gang, at the U. S. legation in Lima on the 6th. The soldiers were in fault, and were punished as they deserved. The wounded servant at the legation was recompened from the treasury.

CHARLESTON, Aug. 11.

The Isabella has sailed for New York to lay up.

We have Havana dates to the 8th. Two hundred and thirty troops arrived from Cadiz on the 1st.

It was rumored that a high officer on the south side of the Island had been assassinated. Havana was extremely dull.

RALEIGH, Aug. 11.

Advice from Texas informs us that Capt. NEW BRUNSWICK, Aug. 9.

The News, referring to the ratification of the Reciprocity treaty, says:

"Now that the American government have ratified the Elgin treaty, there is now no alternative left but to accept it in the provinces. Jonathan has got the best bargain, but, notwithstanding this, we look upon the measure as the opening of the brightest future. New Brunswick has never known. Instead of being confined in Great Britain, to suffer with her in her reverses, we have the whole country of North America for a market. We therefore go in for the treaty."

For the Yeoman.

NICHOLAS COUNTY, Ky., Aug. 5.

August 5th 1854

EDITOR YEOMAN:

The election is over and the result is, in brief, that democratic liberality and magnanimity have allowed to the whigs almost every office in this democratic county. A most singular application was made of the popular doctrine of "rotation in office." Of three candidates who have held their offices for a long time, two whigs were re-elected—our county Attorney and Sheriff—while the third, our ever faithful and highly competent county clerk, a democrat, was defeated. This is certainly sufficient evidence of the liberality and magnanimity of which I have spoken.

It will be remembered that in the sweep-stake race for State offices, three years ago, the whigs swept all, and elected the Auditor, Treasurer, Register, Attorney General, Clerk of the Court of Appeals, &c., all of whom then held those offices, and some of whom had been in office at most time out of mind.

Now that whigs leaders are beginning to nominate candidates for all county offices, great and small, as in Franklin, Fayette &c., it is high time the democracy were awakening to their true interests, and seeking to preserve their influence in the counties and in the State, by adopting and pursuing such a course as will effectually secure a fair and just distribution of the offices within the gift of the people, both in the counties and in the State.

MYSTERIOUS DISAPPEARANCE.—We copy the following from the Madison Courier of Monday evening:

Mr. Meldrum, agent of the mail line steamers, informs us of the mysterious disappearance of W. N. Nichols, of Sligo, Ky., from the steamer Manfield, while on her downward trip from Cincinnati on Thursday night last. Mr. Nichols had been to Cincinnati, purchased a stock of goods, had them all on board the Manfield, paid his freight and passage to Madison, and retired. When the servant went to wake him, that he would have time to dress himself and get off at Madison, all that was to be found in his state room was his shoes, hat, cravat, and carpet bag.

The supposition is that he has fallen overboard. He leaves a wife and family a Sligo.

EVIL effects of Croton water.

The following letter describing the evil effects attendant upon a too free indulgence in Croton water, has been handed us by a friend. The experience of the writer is detailed in a very amusing manner:

NEW YORK, July 29.

Only once in my life have I been drunk. It was a youthful inebriation, caused by partaking too freely of cider made from apples with worms in them. At present I am sober. Whether for the last four and twenty hours, I have been so, is the point requiring elucidation. If, during that period, I have been intoxicated, then the time has arrived when any person who wishes to have a regular "drunk" need only apply to the nearest hydrant. Heretofore I have supposed water to be a beverage innocent and harmless; but now—well, no master—I will not anticipate—I listen while I relate a "plain, unvarnished tale."

I left my boarding house in company with a friend, intending to witness the Shakespearean revival at Burton's, the "midsummer night's dream." Before leaving the hotel, at the suggestion of my friend we partook of a potable, known, I think, as punch—whiskey punch. I watched attentively the preparation of this agreeable beverage, and I am certain that there entered into its composition a certain amount of water—Croton water, as I have every reason to believe, and I am also sure that, in that treacherous draught, I imbibed the first installment of that venomous liquid which produced the diabolical state of facts I am about to relate. and also that the second, and third, & those ingenious inventions both of which we drank on the spot were as guilty, in this respect, as our "elusive, artful, & unscrupulous" professor.

Let me not neglect your plain, unvarnished tale."
